

CPD

Disabled Toilets? They probably are...

OBJECTIVE

This CPD will help you to specify accessible washrooms that look fantastic and are easy to use.

Accessible washrooms can be inspiring spaces, whilst complying exactly with Part M of the Building Regulations – and they can be simple to specify too!

Learn how to transform the experience of accessible washroom users with video clips and interactive activities that bring designing for accessibility to life.

SYNOPSIS

- > Awareness of common issues with the design of accessible washrooms
- > Video clips demonstrating the difficulties that accessible washroom users face every day
- > Stimulating case studies showing both good rooms and bad
- > Stylish design - how to achieve complete compliance without compromising on class
- > An overview of the regulations and best practice
- > Infection risks and how to limit the spread of bacteria
- > Demographics – and why accessible facilities will be even more critical in the future
- > The accessible washroom of the future

YOUR QUESTIONS ANSWERED

- > Is it possible for an accessible toilet to comply with Part M of the Building Regulations and still look good?
- > What does LRV stand for and why is it important when designing accessible facilities?
- > Is there a simple way to specify nice-looking Part M compliant washrooms?
- > Why are the dimensions of the WC critical?
- > Why should the tap be situated close to the WC?
- > Why is the projection of the hinged support rail important?
- > Full Q&A session at the end of the seminar

WHAT ARCHITECTS SAY ABOUT OUR CPD

“ It was great – very informative and interesting and much enjoyed.

“ Very interesting. Better than they thought it was going to be. Agenda is very understated.

“ Our architects found it very informative and enjoyed the interactive approach – lunch was good too!

A small carton will be delivered to your practice the day before the CPD to make it a true ‘Dolphin experience’
