DOLPHIN WASH STATION

- › The Dolphin Wash Station provides a complete hand washing facility at the point of use. An ideal solution where space is at a premium.
- › Unit automatically dispenses a measured amount of liquid soap. After a time delay allowing the user to lather hands a measured amount of temperature controlled water is dispensed. Finally the integral warm air dryer is activated to dry hands.
- › All functions are adjustable
- › Finished in satin stainless steel
- › 13A fused spur 220/240v single phase electrical supply (50hz)
- › A single 15mm cold water feed (3/4" BSP)
- › Includes an integral water heater
- › 32mm plastic waste pipe connection
- › 3 core 1.5mm cables
- › 1 bar minimum water pressure required at a maximum static pressure of 7 bar
- › Soap level indicator warns of low soap, allowing 75 further shots before the unit is deactivated
- › CE approved product
- › IP21 protection
- › 12 months manufacturer's warranty
- › Download the PDF for more detailed dimensions
- › WRAS approved
