

**DB450 / DB475**

## PANEL MOUNTED INFRARED TEMPERATURE CONTROLLED TAP

- › Touch Free Electronic Tap – Tap is activated when the user brings hands within the infrared sensor range
- › Ultimate Hygiene-Prevents cross contamination
- › Water Supply: hot and cold supply with temperature adjustment lever
- › Power source: Plug in 9V transformer (supplied) or by 9V battery pack (6xAA batteries)
- › Quality brushed chrome plated brass finish – other finishes available to special order
- › Tap settings may be adjusted by using remote control (DB 51)
- › Filters, fixing bolts, installation instructions and power source supplied with each tap
- › Maximum water temperature 70°C
- › 2 year manufacturer's warranty
- › Flow rate: Max. 3.5 litres/minute (1.25 and 1.75 litres/minute available) between 0.5 and 8 bar
- › Flow time once user's hands are removed from the tap – 1 second (adjustable by using remote control DB51)
- › To combat Legionella, hygiene flush feature runs the tap for 25 seconds, 24 hours after the last use of the tap. This flush time or 24 hours interval cannot be changed and is not based on real time, the feature can only be switched on or off using a compatible remote control(DB51). Taps are supplied with this feature switched on
- › Fully BREEAM compliant and contributes to up to five BREEAM WAT1 credits.
- › Listed on the Government's Water Technology List (WTL) as part of the Enhanced Capital Allowance (ECA) scheme. This allows businesses purchasing these product to benefit from 100% first year capital allowances on this expenditure
