

BCL636

DOLPHIN WALL PLATE MOUNTED INFRARED SOAP DISPENSER

- › Electronic soap dispenser activated by an infrared sensor
- › Soap Drop Portions: 0.7-0.9ml per drop portion (adjustable and depends on viscosity of soap)
- › High quality polished chrome or brushed nickel-finish brass construction
- › Soap Container – 1,000ml
- › 2 year guarantee
- › Powered by 12v Transformer
- › Wall Mounted
- › Designed to match Dolphin Blue DB400 and DBI400 range taps
- › Important: please contact Dolphin Technical Helpline 01424 202224 or consult fitting instructions for design guidance
- › Settings can be adjusted with a remote control (DB07100014)
- › For panel mounted version see BCL632
- › Power connections: soap dispenser: female / power source: male
- › Draws maximum current of 0.5A at sensor activation
- › To match this wall plate mounted soap dispenser with a wall plate mounted tap, we recommend our DS102 & DS104 InForm sensor taps
- › Suitable for hand sanitiser

PROJECTION	150MM
DIAMETER	28MM
