

DB3200

DOLPHIN BLUE THERMOSTATIC SHOWER VALVE

- › Dolphin Blue Shower Valve with Thermostatic Temperature Control and Headworks
- › Minimalist design with slimline rectangular face plate
- › TMV2 thermostatic temperature control maintains consistent, comfortable showering temperature whilst ensuring against scalding
- › 30mm levers on the DB3200 version (As shown above) allow operation even with a clenched fist ideal for installation in accessible areas
- › Single outlet (headworks) for either fixed shower head OR hand held shower head with hose (sold separately)
- › Two outlets (two-ways diverter) also available for connection to an fixed shower head and hand held shower head with hose - see DB3100
- › Complements most of our other Dolphin taps and fittings
- › Available in both polished and satin/brushed finish, also available to be Powder Coated in any RAL colour of your choice
- › High quality brass and stainless steel construction with highest quality cartridges and mechanisms from market leading specialist manufacturers from within Europe to ensure robust and reliable performance in high demand commercial locations
- › Suitable for all water systems
- › 5 year parts and labour guarantee

WIDTH	130MM
HEIGHT	215MM
PROJECTION	45MM

Note: To obtain an optimum function (regulation in conformance with the standards, absence of noise or hydraulic vibrations), we recommend a limiting of the hot/cold inlet pressures to 5 bar, with a difference of pressure between hot and cold not exceeding 2 bar. This pressure should be a constant (therefore the dynamic rather than static pressure) and avoid pressure fluctuations caused by pumps cycling.
