

BCL632F

DOLPHIN PANEL MOUNTED INFRARED FOAM SOAP DISPENSER

- › Electronic foam soap dispenser activated by an infrared sensor
- › Available with 1Ltr refillable bottle or 2 Ltr sealed cartridge system (WELL V2 Compliant)
- › Cartridge system comes with one cartridge supplied FOC (approximately 6,000 soap shots)
- › Foaming soap drastically reduces soap consumption when compared to standard liquid soap
- › Integral peristaltic pump prevents backflow - ensuring a germ free environment and eliminating contamination
- › Sealed cartridges dramatically reduce the risk of bacterial contamination, keeping dispensers free of congealing soap, blocked filters, and pipework
- › Soap 'foamability' is adjustable via DB53 remote control - one supplied FOC with every 6 dispensers, and can be purchased separately.
- › Sensor settings are adjustable with the more complex DB52
- › Available in polished (BCL632FC) or brushed satin (BCL632FS-2) finishes on solid brass construction
- › Panel mounted, comes with a 1 litre foam soap bottle, integral bottle support and fixing kit
- › Designed to match Dolphin Blue DB400 and DBI400 series taps
- › Contact Dolphin Technical Helpline 01424 202224 or consult fitting instructions for design guidance
- › Power connections: soap dispenser: female / power source: male
- › Draws maximum current of 0.5A at sensor activation
- › 2 year guarantee
- › Powered by 12v Transformer; a 3pin version is supplied complete with each dispenser
- › Suitable for Hand Sanitiser

PROJECTION

150MM

DIAMETER

28MM
