

DS421

DOLPHIN INFORM COUNTER MOUNTED SOAP DISPENSER

- › Touch free counter mounted infrared soap dispenser
- › Comes as standard with 135mm height and 95mm projection, other lengths are available on request
- › High quality 316 stainless steel construction
- › Available in liquid (L) and foam (F) soap versions
- › Available in Brushed and mirror polished stainless steel, PVD, Ceramic coating in all colours, and Powder coated in any RAL colour.
- › Soap Reservoir options include – 1,2 or 5 ltr bottle, multifeed systems (BC1900 or cartridge systems) or DS800 or DS810 cartridge systems
- › Designed to be paired with DS221 tap
- › SMART enabled to allow for better control of your washroom (when bought with a bluetooth adaptor)
- › Can be bought with a hard wired or plug in transformer
- › Designed as a plug and play system for most common installations – but in special cases, soap delivery time, pump speed, and sensor distance setting can be changed via dolphin app when bluetooth adaptor is installed
- › Effective maximum length of soap tube and cable is 1.8m
- › 30mm mounting hole in counter required
- › WELL compliant if you take out bottle and clean or replace every time before refilling - or you can also use a cartridge system to achieve this
- › Default liquid soap dose of approx. 1ml
- › 5 year warranty
- › Doc M compliant
- › Typical power consumption 0.5A per activation
- › Supplied with 1A power supply
- › Working parts are all housed inside the body – saving space and helping with ease of maintenance
